RE: Approval of a permanent water line easement to the City of McKinney located north of US 75 and North of Bloomdale Road

The City of McKinney is relocating water facilities for the TxDOT US 75 Widening project. The water line relocations are from Justice Road to north of Bloomdale Road along US 75. Construction is scheduled to begin in summer of 2012.

The city is requesting a permanent easement from Collin County located on the west side of US 75 just north of Bloomdale. See attached easement exhibit. The new waterline will be a benefit to the county in that it will supply water to future campus expansions. The relocation is at no cost to the county.

The county facility and construction departments have reviewed the attached documentation and are receptive to the easement.

We request approval of the permanent water line easement to the city of McKinney and authorize Judge Keith Self to sign the attached easement document.
